

## **A level Results - Useful Information**

**If you have not done as well as you expected or have changed your mind about going to university these are your options.**

Check on UCAS TRACK as you may still have been offered a place. **DO NOT ASSUME YOU HAVE BEEN REJECTED.** If there are exceptional circumstances that affected your grades then your school, college or yourself can contact the university to ask if they will still accept you **BUT YOU MUST DO IT AS SOON AS POSSIBLE.**

If you do not have a place or have been refused a place you can go through clearing. All the information about what you need to do is at <http://www.ucas.com/clearing> If you do go through clearing you must still research the course as you may not find a course identical to your original choice. Some courses can sound similar to your first choice but the content can be very different.

### **Your alternatives if you still want to go to university.**

Take a gap year and re-apply for next year. During this gap year you can do more qualifications either full time or part time. You can consider studying at a sixth form, college or distance learning. You may have course fees to pay.

Some local colleges may offer Foundation Degrees or Degree and it may be worth contacting the college direct. Look on [www.ucasprogress.com](http://www.ucasprogress.com) and local college websites.

Another option is to take a similar type of degree which requires lower entry qualifications. When you have obtained this degree you may be able to re-apply to the course you really wanted. Note this is adding extra years of study and cost. Speak to a Careers Adviser before you take this option.

### **If you decide not to go to university at this time your options are:**

**Apprenticeships** – you may be able to apply for a higher level apprenticeship, including degree apprenticeships and this will lead to level 4 or higher qualifications. Some employers will support you to do a university course while on your apprenticeship.

Other apprenticeships are also available and you can look at both levels 2 and 3. You will need to check the entry qualification requirements for each apprenticeship as some employer requirements can vary. [www.gov.uk/apply-apprenticeship](http://www.gov.uk/apply-apprenticeship)

[www.barclayslifefskills.com/](http://www.barclayslifefskills.com/)

**Jobs** – you can apply for jobs on the Universal Jobs Match website and the other jobs websites including those run by your local newspaper. You can also look at big name companies who have their own websites as they often advertise vacancies on line rather than in their stores. You can research your job ideas on the Job Profiles section on the National Careers Service website. The information in the job profiles can help you target your CV / application towards specific jobs.

## Useful Websites

The following list of websites includes information about different employment sectors and advice on where to find vacancies.
