Reduced class sizes by creating an additional English class for a group of 4 students with significant needs in literacy.	£2,340
	£8,878

- This is the first year that we have run a Reading Leaders Programme by trained staff in school rather than historically contracting out to 'Reading Matters' Charity, allowing school to deliver the same quality programme but at a much reduced cost. The saved costs this year have been allocated to Maths but re-distribution and parity will be sought next year as we continue to look for the most effective and efficient ways to deliver impactful intervention.

Total - £21,845
